DAILY PITTSBURGH GAZETTE.

WEDNESDAY AFTERNOON, JAN. 1, 1834.

A MATTER FOR CONSIDERATION.—A Convention of delegates, from the counties in Pennsylvania and New York, adjacent to the Allegheny river, is to be held at Warren, Warren co., Pa., on the 24th inst., to devise ways and means for the improvement of that beautiful stream. It is high time that the citizens of Pittsburgh should begin to consider whether they will have delegates there. It is so obvious that the proper improvement of this river, will be immensely advantageous to this city, by affording an extensive outlet for her iron, nails, glass, and various other manufactures, that we deem argument or explanation on this point superfluous. We do not mean to press the matter, but felt that we would be neglecting our duty, if we failed to call the attention of our fellow citizens to this subject, and to inform them that such a convention was about to be held.

Navigation of Lake Erie.—A fine, large schr., built and owned by Wilkeson & Sons, of Buffalo, was a short time since launched into the waters of Lake Erie. She is called the John C. Spencer. The Buffalo Journal gives the following compendium of the navigation of the lake.

"The first vessel navigating Lake Erie, under the American flag, was the sloop Detroit, purchased by the government of the British North West Company, in 1796. She was of about 70 tons burthen, but was old, and scarcely sea worthy when purchased, and soon after was condemned, and laid up at the River Rogue. In the same year, '96, a small schooner, called the Erie Packet, was built at Canada, to run between Fort Erie and Presque Isle. She was lost in '98, by drifting out of Erie harbor. In 1797, the schooner Wilkinson, of 80 tons, was built at Detroit by Abbots & Connelly, and sailed for two years, by old Connelly, as master. In 1810, she was thoroughly repaired, and her name changed to the Amelia; and, 1812, was purchased by the government, and armed, and had the honor of belonging to Commodore Perry's squadron, and participating in his glorious victory. The Good Intent, of 35 tons, was built by Captain Lee, in 1799, and navigated the lake till 1806, when she run on to Point Abino, and was lost, together with her cargo and crew. The same year '99, the brig Adams, and schooner Tracy were built by the government. The former was captured by the British the first year of the war, afterwards retaken at Fort Erie, and run upon Squaw Island, and burnt. The latter was sold to Porter, Barton & Co., and afterwards lost on the reef, near Fort Erie. In 1805, the War Department, possessing, it would seem, no very accurate notion of our localities, directed the commanding officer at Fort Niagara, to construct, at *that post*, a vessel of suitable size to transport the Indian presents from Niagara to Fort Wayne. The commanding officer, anticipating some difficulty in advancing up the Falls, ventured to depart so far from his instructions, as to cause the vessel to be built at Black Rock. She was called the Nancy, and was of about 50 tons burthen. The Contractor, a fine vessel of about 80 tons burthen, was built at Black Rock, in 1806, by Porter, Barton & Co., and was sold to the government in 1812. The Catharine, another line schooner, was built by Sheldon, Thompson, and others, at Black Rock, in 1808. Several other vessels were built about this time, at different places on the lake, but our recollection does not serve to give their names.

SYKESVILLE, BALTIMORE, & OHIO RAILROAD, *December* 25, 1833.

"We have an interesting exhibition in our village to night. For some days past, owing to an abundant supply of water, and the prospect of a decline in price, heavy supplies of Flour have been forwarded by the millers, which caused an accumulation at the Frederick Depot. The prospect of a decline made it desirable to the owners that extra facilities of transportation should be furnished by the Railroad Company, which, being made known to the Superintendent of the Transportation Department, every facility in the power of the company was promptly afforded, and, in consequence, the road for a day or two has been *all alive*, with extra teams going to the *Land of Egypt for corn*, and to night we have a return train of *one hundred and forty cars, containing upwards of three thousand five hundred barrels of Flour*, which you may look for in the *Monumental City* in all to morrow. It is but an act of justice to the Railroad Company, that their efforts to accommodate the public should be made known, and if you think it matter of sufficient importance, you will lay the information before your readers in such shape as you may deem proper."—*Gazette.*

Extract of a letter from the Correspondent of the Philadelphia Commercial Herald, dated

"WASHINGTON, Dec. 26, 1833.

"There is a rumor that some who have been aiding to bring about the crisis which seems to be approaching, have become suddenly alarmed, and would willingly retrace their steps, if they could do so without incurring the resentment of the President, who would thus be effectually enlightened as to the profundity of their wisdom, and the purity and disinterestedness of their patriotism. The fear of betraying themselves to the President, is the only obstacle to recantation. I had heard it whispered some weeks ago, before the meeting of Congress, that Mr. Taney was apprehensive that he had undertaken a task which he never could perform, and that the confusion which had already manifested itself in the Treasury Department, staggered his conviction of the wisdom of the measure which he had both counselled and executed."

We learn that one of the late packets from England brought back a considerable amount of Ohio State six per cent. stock certificates, which had been sent out for sale from New York, but which, it is said, could not be negotiated in England in consequence of apprehended difficulties in the currency and moneyed operations of this country.—The bills drawn on the strength of the negotiation of the certificates, were also returned protested.—*Balt. Amer.*

South Carolina.—The test oath, as it is called, has passed both branches of the South Carolina Legislature, by the requisite majority of two thirds. The next step is to sumbit it to the people (at the period of their general election in Oct. next) when, if they confirm the decision of their representatives, it will become a part of the fundamental law, or constitution of that state. It amounts to but little, however, at last. The marrow of the test oath is to require in a person before he takes office in that state, to swear, that "he will be faithful, and bear true allegiance to the State of South Carolina, and that he will support, protect, and defend the Constitution of this State and of the United States."

The minority in the Senate of South Carolina, have entered upon the Journals a protest against the passage of the law establishing an oath of allegiance to the State.—*Balt. Amer.*

Craig, John Caldwell, and John Irwin.

Merchants' & Manufacturers' Bank.—Discount days, Mondays and Thursdays. Notes must be offered on Saturdays and Thursdays.—*List of Directors.*—M. Tiernan, (President,) Isaac Lightner, T. B. Dallas, Jacob Forsyth, Thomas S. Clarke, Geo. A. Cook, J. H. Shoenberger, Frederick Lorenz, Samuel Church, Thomas Scott, F. G. Bailey, Samuel Smith, Samuel Fahnestock.

FROM PORTUGAL.—It was lately mentioned, on the report of Captain Mollien, of the Swedish ship Preciosa, from St. Ubes, that great consternation prevailed in that place in consequence of an expected attack from the force of Don Miguel, and that the inhabitants were endeavoring to obtain shelter among the shipping.

Capt. Parsons, of the ship William and Henry, who sailed from St. Ubes on *the same day*, with the Preciosa, and has arrived at Gloucester, Mass., gives a different account of the affairs in that place.

According to his statement, tranquillity prevailed, and the people had returned on shore from the shipping, where they had fled for safety. Skirmishes between small parties were very frequent, but no fears were entertained for the safety of the city, as it was well guarded, both by soldiers, and a ship and brig of war.

Capt. P. states that in the last skirmish, before he left, 200 Englishmen were killed.

In the last number of the Westminster Review, just republished in Philadelphia, by Condy Raguet, is an account, historical, descriptive, and statistical of the British Province of Nova Scotia.—It treats more particularly of the principal harbors and ports, and contains much information, valuable especially to Americans, who are such near neighbors to that Province. It endeavors to show the great local advantages of Nova Scotia for trade and internal intercourse. Harbors, bays, and rivers, encircle and intersect it with such equality of distribution, that out of 15,617 square miles of which it is composed, there is no point more than thirty miles distant from navigable water.

Halifax, however, has received the most attention from government, and more than one half of the export trade and nearly all the import trade, are carried on from that port. In 1828, the imports amounted to £733,392, which employed 544 vessels and 3,340 men. The exports, exclusive of the coasting trade, amounted to £246,852, employing 61,000 tons of shipping. In the same year 150 vessels were owned in the port, of which 73 were square rigged, and, 77 schooners. The direction of this trade is worth remarking. Seventy vessels were employed in the West India trade, four with Great Britain, six with other parts of Europe and Brazil, and the rest in the fisheries.

This trade furnishes an ample stock of sailors, and proves and insures a prosperous state of the navigating interest of the Colony. The growth of Halifax has been steady. In 1790 it contained 700 houses, and about 4,000 inhabitants; in 1828 it contained 1,580 houses, and 14,439 inhabitants. Hitherto the foreign trade has been confined chiefly to Halifax, made a free warehousing port in 1826, but since that period, the same privilege has been extended to Pictou and Sydney.—*Balt. Amer.*

Population, Produce, &c. of the West India Islands.—It appears from official documents that the population of the West India Islands, subject to Great Britain, consists of 77,460 whites, 113,890 colored free, and 692,700 slaves: the annual produce, 3,816,000 cwt. of sugar, 19,769,500 lbs. of coffee, and 7,808,000 gallons of rum. The exports to Great Britain amount in value to 8,603,000*l*, and the imports in return to 4,035,000*l*.—The shipping employed in this immense trade amounts to 264,700 tons.

Paper from Corn Husks.—The famous Cobbett states that he has received from a paper manufacturer at Guilford, (Eng.) fifty sheets of paper, made from the husks of corn which he had only sent off to be manufactured the week before.

Certainly the suggestion is worth the experiment, and we should be glad to see some of our American paper manufacturers try it. Good wrapping paper is now made from common straw; and when we recollect the firmness, texture, and complection of corn husks, we are not surprised that an ingenious man should have thought of it as a material from which to manufacture paper. In the increasing and accumulating demand for printing paper, occasioned by the wants of the press, it is certainly desirable that some cheaper substitute may be found than rags from which it is now made.—*Troy Press.*

The American Steam Carriage Company has possessed itself of the exclusive right secured by letters patent to Col. S. H. Long, of the U. S. Engineers, for his improvements in locomotive engines, and other railway carriages. It proposes to furnish engines and other carriages, warranted to fulfil all the conditions realized by the best locomotive engines hitherto employed within the limits of the U. States. Anthracite coal can be employed to great advantage in this improvement of Col. Long's —and will be found as efficient as other engines that use bituminous coal, coke, or pine wood.

Extracts from the Review of the Philadelphia Market, for the week ending Friday evening, December 27.

The transactions this week have been very limited, and the sales mostly in small lots. We continue, generally, our former quotations, there being in many articles no sales of sufficient magnitude, to establish the prices at this time.

BEESWAX—We note one sale of 1,500 lbs. Yellow, good quality, at 20 cents, on time; other sales in small lots at the same rates have been made.

CLOVER SEED.—The demand is limited. It is held at $4 50 to $5; but lower prices have been submitted to, owing to the scarcity of money.

COTTON.—The sales this week amount to 334 bales; 134 bales of which were of Virginia and Upland, by one house, at 13, 13 1-2, 14, and 14 1-2 cts., on 4 months credit; 75 bales Georgia, on terms not reported; 58 bales do. at 14¼ cts., 4 mos.; 25 bales South Carolina, 13 cents, and 42 bales qualities at from 13 to 14 cts.

Importations during the week—466 from Savannah; 194 do. Charleston; total 660 bales.

COFFEE.—The transactions of the week embrace the following parcels:—150 bags Laguayra, prime green, at 12 1-2 cents, 4 mos.; 150 bags Rio, first quality new crop, at 12 1-2 cents, 6 mos.; 50 do. do. at 12 1-2, 4 mos.; 112 bags Rio, old crop, terms not reported, but supposed to be under 12 cents; 100 bags do. at 12 cents, 4 and 6 mos.; 15 bags Java at 14 cents, on time, and 10 bags Rio, at auction, 11 1-4 cents cash.

FLOUR AND MEAL.—The sales of the week have been small, only amounting to 3050 bbls., of which 2050 were at $5 25, and 1000 on terms not reported. Rye Flour, 290 bbls. at $3 62 1-2. Corn Meal.—No sales reported.

SUGAR—Early in the week 51 hhds. New Orleans, new crop, were sold, of which 20 at auction brought $8 50, 4 mos.; 16 prime at $8 50, on time, and 15 hhds. at 8 cts., 4 mos. 25 hhds. New Orleans sold since at $8 50, 4 mos.; 10 at 8 25 to 8 50, on time, and 10 at auction to day at $8 50, 90 days.

WOOL—The accounts from England to the 15th of November, show a considerable advance in price. The stock on hand here is small, and prices are fully maintained. The sales reported amount to 40 bales, which have been taken at prices as high as our quotations.—*Com. Herald.*

NEW ORLEANS MARKET.

Dates and Prices.—Our New Orleans dates are up to the 9th inst. At that date no change had taken place in the prices quoted below.—*Louisville Herald.*

From Levy's N. O. Prices Current, Dec. 7.

COTTON.—There been a fair business done during the past week, and the sales amount at least to 13,000 bales, viz: 1,350 at 13; 300 at 15 1-2 to 16; 210 at 13; 2,200 at 13 1-2; 1,100 at 14 1-4; 600 at 13 1-2; 1,100 at 13 1-4; 2,000 at 13 1-2: and 500 at 13 1-8—all Louisiana and Mississippi, and 1,000 Western District of Tennessee, at 12 1-2.—Prices continue without change whatever; and the only remark which we have to make in relation thereto is that, though we quote at 16 cents as the highest rate, there is very little cotton in the market that will command that price—from time to time small parcels obtain it—it is an irregular quotation, and the top of the market. Arrived since the 29th ult., of Louisiana and Mississippi, 14,239 bales; Mobile, 55; Lake, 45; Florida, 293; together, 14,862. Cleared, in the same time, for Liverpool, 4,538; Greenock, 1165; Havre, 1617; Marseilles, 678; Nantz, 486; Gibraltar, 30; New York, 678; Philadelphia, 857; Portsmouth, N. H., 553—together, 10,602 bales—making an additional stock of 4,080, and leaving on hand, inclusive of all on ship board, not cleared on the 5th instant, a stock of 76,000 bales.

SUGAR—Former rates are continued, viz: on plantation for best quality, 6 cents; in the city, 6 1-2 a 7 1-4 cts. per lb. The article is dull, the planters are firm in their demands, and shippers obstinately refused to pay them. The small business doing in the city is at the rates above mentioned. Cleared this week; for Philadelphia, 305 hhds.; Richmond, 200 hhds.; Norfolk 206 hhd.; N. York 194 hhds., 1 bbl.; Baltimore 6 bbls—together, 908 hhds., 7 bbls.

MOLASSES—The rates last quoted remain without change. Holders are firm at 21 cents per gallon, but shippers decline paying this rate. There is very little selling on plantation. In the city prices are steady at 27 cts. per gallon, casks included. Cleared this week: for Richmond, 140 bbls.; Norfolk, 50 hhds.; N. York 13 bbls.; Baltimore 2 bbls—together, 50 hhds. 155 bbls.

TOBACCO—There is nothing doing in the article, and the only movement is a few hhds. passing to the shipping ordered coastwise. There is none for sale, and none coming into market. Cleared this week: for New York, 7 hhds. Arrived 2 hhds.

FRENCH BURR MILLSTONES!

THE Subscriber respectfully informs the public in general, and Millers particularly, that he continues the manufacture of French Burr Mill Stones, as successor to Munson & Brady, at his residence, 27 miles from Pittsburgh, on the Mountpleasant and Pittsburgh road. He is constantly supplied, from France, with a choice selection of BLOCKS—and having followed the business of a Miller for seven years, and having served a regular time at the Burr making, he is now prepared to warrant the workmanship and materials of all the Mill Stones which shall be made at his factory. The subscriber has pursued the business at his present place for two years, and has heard no complaint about his Burrs.

Orders addressed to the subscriber, at Madison Post office, Westmoreland county, or to George Cochran, of R'd, Pittsburgh, will receive due attention.

☞The prices, same as heretofore, being much lower than they can be brought from east of the mountains. Cash will in all cases be required, when the Burrs are taken away.

JACOB DAVIDSON,
Madison, Westmoreland county, Pa.

J. APPLETON'S LATE IMPROVED
WASHING MACHINE.

THIS valuable improvement has been preferred by all who have used it to any other machine of the kind yet offered to the public.—It is expeditious, without injuring the clothes washed, as will be seen in the certificates below. All those who wish to save labor in washing, will please to call and see the operation, at the Masinon House, corner of Wood and Fifth streets. Machines, and the right of counties for sale—Machines 12 dollars—and at any persons service for trial. Dec. 31, 1833.

We have had in use Appleton's Patent Washing Machine, and do not hesitate to say that it is preferable to any that we have seen or used. A woman can wash as much in one day, with the machine, as she could in three by the hand, and only half the soap is necessary. We think it clears the clothes better than hand washing, without injury to them. We have also used Barnes' Patent Steam Washing Machine, called Peg Machine, but give Appleton's the preference. It washes cleaner and faster; therefore we recommend Appleton's Machine to the public in general.

Lucy Higginbotham, Robert Poore, | Elizabeth McKim.

We have in use Appleton's Patent Washing Machine. It is so simple in its construction that it may be used by any unskilful hand, and we do recommend it as a great saving of time and labor.

Edmund Henderson, A. Robinson, George Greenhow, | M. Gretter, James Fisher, Isaac White.

Hamilton County Agricultural Society.

It is hereby certified, that the Judges, appointed by the Hamilton County Agricultural Society, for the exhibition, held at Mill Creek, on the second of October, 1833, having awarded that Appleton's Washing Machine, submitted to the Society, on trial, appeared to their satisfaction to be of utility as a labor saving machine in domestic economy—they unhesitatingly recommend it to their fellow citizens—in testimony whereof, this Certificate is given. D. C. WALLACE, Sec'y.

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Frankiin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
